To: CRD LHK <LHKCRD@cand.uscourts.gov>

Your Honor,

I am a census worker from California currently enumerating customers in the Las Vegas area. I have been doing so here for the past three weeks. The current deadline imposed by the Government is impossible to meet. Especially in the minority population. There is still much to do but we are being pressure by the Supervisors to close cases quickly, if not at all accurately. I implore you to extend the deadline at least until October 31 regardless of what the Trump Administration wants. Many states, including Nevada has not been properly counted yet. Especially the Southeastern states ravaged by the recent hurricanes. We want to be able to do our jobs correctly & as accurately as possible.

Sincerely,

Paul Costa
